Sales Data Analysis Report
Prepared For: Business Stakeholders
Dashboard: Sales Performance Analysis
By Prerna Mumbaikar

Overview

The company recorded $118.73M in Total Sales from 1.13 million units sold, generating $16.89M in profit on $128M Gross Sales. While the business experienced significant year-over-year growth, profitability is constrained by high Cost of Goods Sold (COGS) of $102M and aggressive discounting in certain customer segments.

Business Overview

Key Performance Indicators (KPIs)

Metric	Value
Gross Sales	128M
Total Sales	118.73M
COGS	102M
Total Profit	16.89M
Units Sold	1.13 Million

Observation

* Profit margin is approximately 14.2%.
* Nearly 80% of sales revenue is consumed by production costs, indicating room for operational efficiency improvements.

Year-over-Year Performance

Year	Sales	Profit
2013	26.42M	3.88M
2014	92.31M	13.02M

Yearly Trend

Year	Quarter	Month	Day	Sum of sale_year
2013	Qtr 3	September	1	6039
2013	Qtr 4	October	1	12078
2013	Qtr 4	November	1	6039
2013	Qtr 4	December	1	6039
2014	Qtr 1	January	1	6042
2014	Qtr 1	February	1	6042
Total				**120825**

Insights

* Sales increased by 249% from 2013 to 2014.
* Profit also increased substantially but at a slightly slower rate than sales, suggesting that margin improvements did not keep pace with revenue growth.

Recommendation

Maintain revenue momentum while improving margins by reducing production costs and optimizing discount strategies rather than relying solely on higher sales volumes.

Business Insight

* The company generated 128M in Gross Sales, converting into 118.73M in Net Sales.
* Over 1.13 million units were sold, indicating strong market demand.
* 16.89M profit demonstrates that the business is profitable while maintaining a healthy sales volume.
* The estimated profit margin is approximately 14.2%, indicating effective cost and pricing management, though there is still room for improvement.

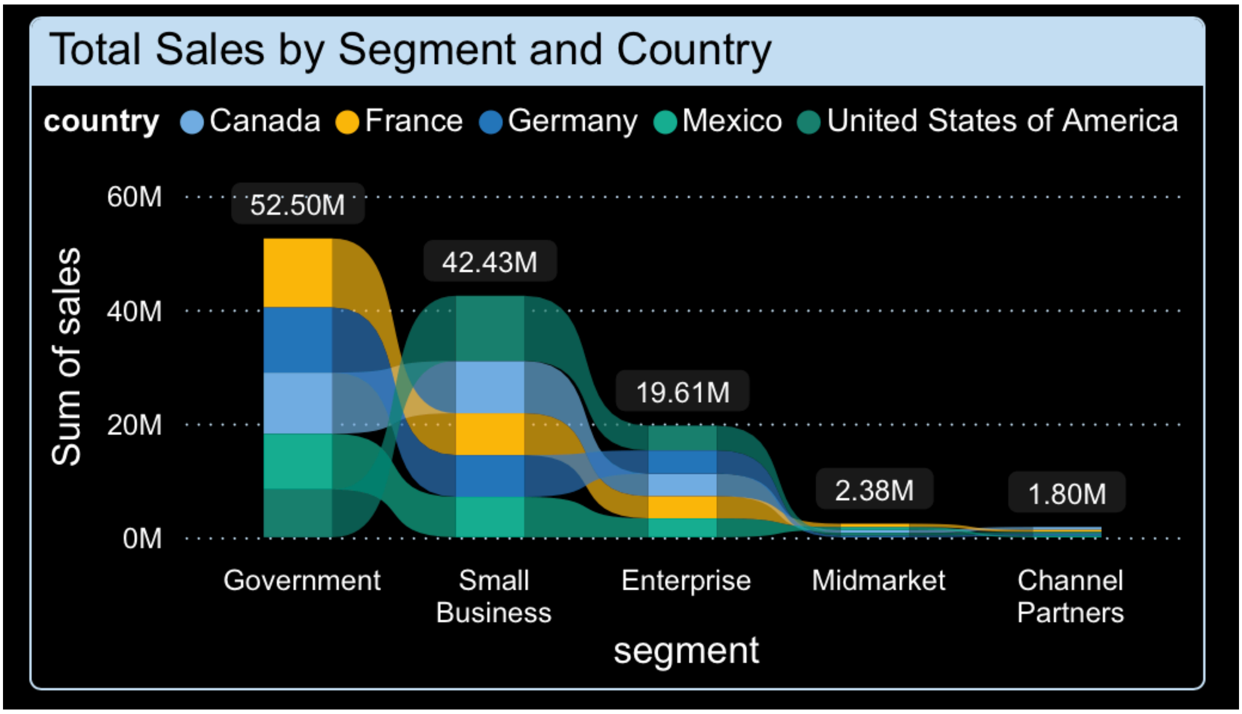
Segment Performance

The dashboard categorizes customers into five segments.

Segment	Sales
Government	52.50M
Small Business	42.43M
Enterprise	19.61M
Midmarket	2.38M
Channel Partners	1.80M

Key Insights

* Government is the highest revenue-generating segment, contributing nearly 44% of total sales.
* Small Business is the second-largest contributor, accounting for around 36% of sales.
* Enterprise contributes a moderate share of revenue.
* Midmarket and Channel Partners have relatively low sales and represent potential areas for business growth.



Recommendation

* Continue strengthening relationships with Government and Small Business clients.
* Develop targeted marketing campaigns and partner programs to improve Midmarket and Channel Partner performance.

Business Insights

* Government is the company’s strongest-performing customer segment.
* Sales grew by 249% between 2013 and 2014.
* Paseo and VTT account for nearly half of total sales.
* High discounts are driving revenue but reducing profitability.
* COGS remains the largest expense, limiting profit margins.

Discount Analysis

Available discount categories:

Business Opportunity

Further analysis of discount bands can determine:

* Which discounts maximize revenue
* Whether higher discounts are eroding profit margins
* Optimal pricing strategies by customer segment

Product Analysis

The dashboard allows analysis across six major products:

Business Value

Interactive product filters help stakeholders:

* Compare product performance.
* Identify high-selling and low-performing products.
* Make inventory, pricing, and promotional decisions.

Geographic Performance

Sales are distributed across five countries:

Key Insight

The company has a diversified international customer base, with strong sales presence across North America and Europe.

Business Value

The geographic analysis helps management:

* Identify high-performing markets.
* Allocate sales resources effectively.
* Plan regional expansion and marketing strategies.

country	Sum of profit
France	37,81,020.78
Germany	36,80,388.82
Canada	35,29,228.89
United States of America	29,95,540.67
Mexico	29,07,523.11

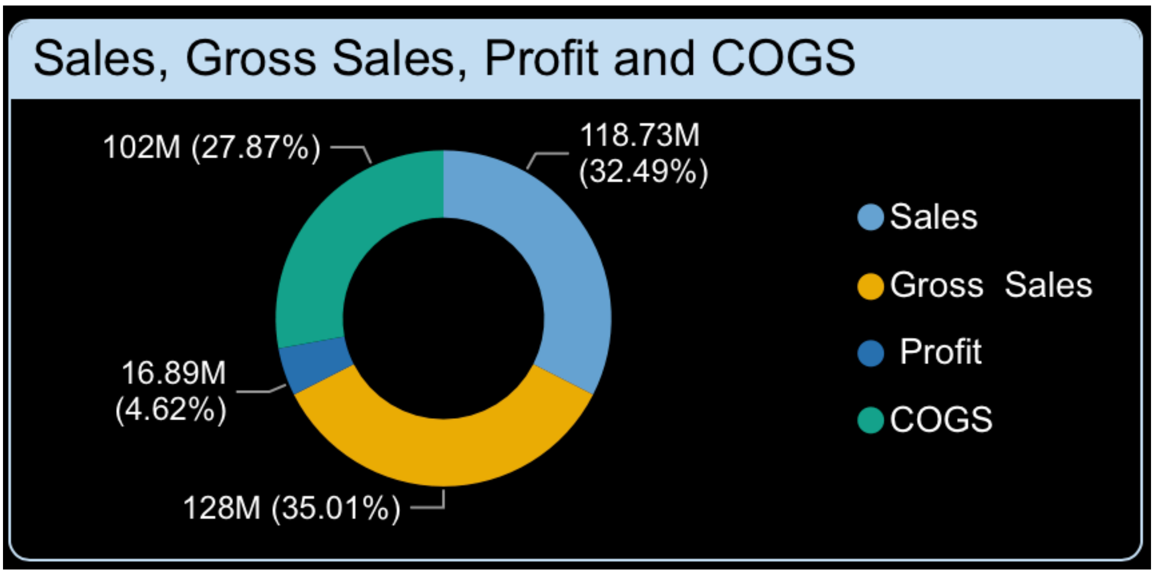
Financial Analysis

The donut chart compares four major financial metrics:

* Gross Sales	128M (35.01%)
* Total Sales	118.73M (32.49%)
* COGS	102M (27.87%)
* Profit	16.89M (4.62%)

Key Insight

Although revenue is strong, COGS represents a significant portion of total revenue, reducing the overall profit margin.



Recommendation

Management should focus on:

* Reducing production and operational costs.
* Negotiating better supplier contracts.
* Optimizing pricing strategies.
* Increasing sales of higher-margin products.

Strategic Business Insights

1. Improve Profit Margins

- Negotiate better supplier pricing.
- Optimize manufacturing and logistics costs.
- Reduce operational inefficiencies.

2. Optimize Discount Strategy

- Restrict high-discount offerings to strategic customers.
- Use customer segmentation for personalized pricing instead of blanket discounts.

3. Strengthen High-Value Segments

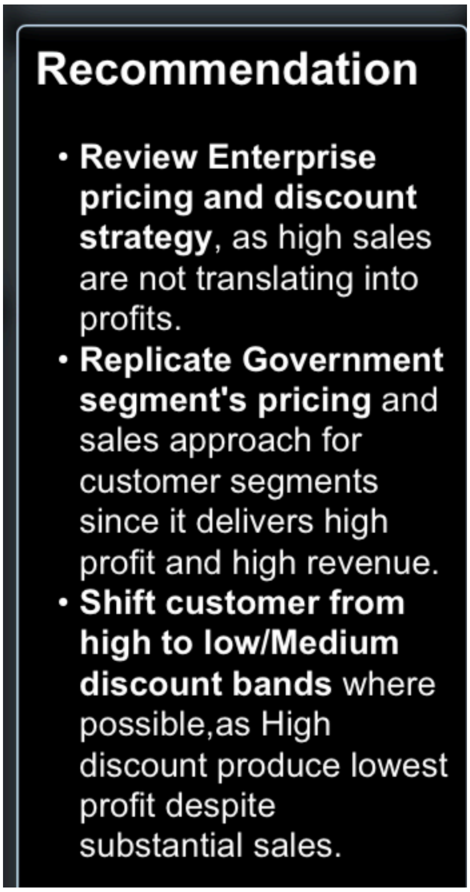
- Increase investment in Government and Small Business accounts through long-term contracts and account management.
- Improve Enterprise profitability by reviewing pricing structures and contract profitability.

4. Expand Revenue Diversification

- Increase focus on Midmarket and Channel Partner segments to reduce dependence on Government sales.

5. Product Strategy

- Prioritize marketing and inventory for Paseo and VTT.
- Review low-performing products for repositioning, bundling, or discontinuation.



Conclusion

The company has demonstrated strong revenue growth and high sales volume, particularly in 2014, with Government and Small Business driving most of the revenue. However, profitability remains constrained by high COGS and aggressive discounting. By optimizing costs, refining pricing strategies, improving Enterprise segment profitability, and expanding underrepresented customer segments, the business can achieve stronger and more sustainable profit growth while maintaining its sales momentum.
